“Do what | love,
Love what | do.”

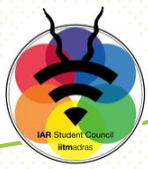

■ *Write and elaborate your vision about IAR as a whole and WebOps team.*

- ✓ IAR is a student council team run by student's community of IIT Madras and as the name suggests, its main function is to connect the alumni to the Institute, and bring their expertise and resources to students and the Institute.
- ✓ It also provides assistance to the students willing to go foreign for higher studies and arrange orientation sessions for them.
- ✓ Brand value of IITM is the main face for outside world, so it is our responsibility to enhance this by regularly contributing towards society through various outreach initiatives.
- ✓ WebOps is the practice of managing and operating web-based applications, so they deliver the best possible experience to users.
- ✓ As the official WebOps team of the IAR student council, we have to build websites for various wings of IAR.

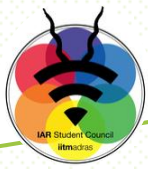

■ *What is your motivation to join IAR WebOps?*

- ✓ I have decent knowledge of **HTML** and **CSS**. I found it very interesting while developing websites for engaging myself in my leisure time. And now, I am in search of refinement of this skill and to join a team with people having interest alike to me.
- ✓ I wish to expand my network and build connection with students as well as alumni. So, IAR will give me this opportunity to increase my reach and contacts with them.
- ✓ I have good designing skills and hands-on experience of **Microsoft Word & PowerPoint**, and frontend is all about appealing presentation of content on webpage.
- ✓ WebDev is one of the most demanding skill in today's world. I want to be a part of Developers community and IAR WebOps will lead me to this path straight away.
- ✓ To learn the practical aspect of web development and gain work experience along with my B.Tech. Program.
- ✓ I am **TECH SAVVY** "well informed about or proficient in the use of modern technology, especially computers." I like to try new things on my own and this makes me even better among my friends.
- ✓ I'm **calm** and **patient**. Even in critical situations I don't panic and looks for solution keeping myself tranquil and keeping the team members motivated.

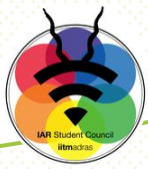

■ *What relevant programming languages or frameworks are you comfortable with?*

- ✓ I am a beginner in the coding world even though I would like to mention that I am familiar with **C and C++** programming languages.
- ✓ I have decent command on **HTML and CSS**.
- ✓ Currently I am working on Java script.
- ✓ No prior experience in development, so it will be a great start of my web development journey with wonderful team of IAR WebOps.

■ *What do you expect out of this team?*

- ✓ Get little support and guidance to push me improving my work and make out the best.
- ✓ Better workplace to learn and apply thing in real world.
- ✓ I am an introvert guy, so I will get a good environment to interact with new peoples and gain knowledge from seniors as well.
- ✓ Gain working experience with a team and have a great bonding with them.
- ✓ Opportunity to grow and develop technical skills.
- ✓ Building relations and making new friends.
- ✓ I wish to improve my communication and leadership skills through IAR WebOps team.
- ✓ I want to learn how to handle responsibilities.

■ *What are the things you feel IAR lacks from the point of view of WebOps and how would you improve those shortcomings?*

- ✓ After going through the websites of IAR, I found them quite attractive and eye catching.
- ✓ But, (Red + Orange) colour combination of webpage makes it outdated, we can tryout better color combos like Red/blue/black gradient background with overlay items relating IAR.
- ✓ In website, the section of alumni's email id is not responding.
(404 - page was not found ☹)
- ✓ Chennai-36 website is quite up-to-date but features only text information. We can add some sections to display images and visual contents to make the reader interested.

WHY ME?

- ✓ I am very hardworking and have lot of commitment towards my work. I'll do the work assigned to me with utmost sincerity.
- ✓ The motivation to work in IAR WebOps team and be a part of this excites me the most.
- ✓ I have ability to learn and grab new things quickly.
- ✓ I have a habit that I don't stop and relax until my work is done and I love this.
- ✓ I like to help others, so I will not restrict myself to only my team but will also help other IAR wings as well.
- ✓ Other than programming and web development, I am familiar with Filmora, Kinemaster, MS Office, Photo Editing, AutoCAD, Fusion 360 and some other softwares knowledge.
- ✓ Besides my academics, I have enough time for IAR WebOps, since I don't have any POR yet.
- ✓ I have learned GIT and now feel comfortable with Github.
- ✓ I always try hard to finish the assigned tasks to me before the given deadlines.
